Thank you for supporting Hook Gardening Club's ongoing fundraising by buying

Justine's Homemade Seasonal Preserves

All the preserves I make throughout the year are advertised on my Facebook page [facebook.com/JustinesFundraisingpreserves](https://www.facebook.com/JustinesFundraisingpreserves) and they are available to buy outside my cottage Rosemary Cottage 163 High Street, Hook in the preserve box and at our fundraising stalls at events throughout the year.

Please pop the money through the letterbox.

Varieties change throughout the year and new seasonal varieties will be listed on the Facebook page when they are available to buy.

Most of the preserves are made from villagers donated fruit with occasional donations of sugar (always gratefully received).

In 2018 I made more than 700 jars of preserves raising more than £500 for Hook Gardening club funds.
